Got this game in a humble bundle. I played it way back when it first came out of iPhone and it has held up pretty well over the years. I do find the seperation into chapters a little confusingly unnecessary, but it allows the game to go into two different directions, so whatever floats your boat. It does get repetative though. What was easy to do on a phone with swiping one element to another is a little bit slower and more tedious with a mouse. The puzzles and quests were really fun, and (with help from guides) achievements are all pretty attainable.

If you can see past its flaws and enjoy a game that is quite repetative in nature, then Doodle God may be for you. If not, definitely avoid it as it will probably be another title that ends up collecting dust in your library.. Great app, great start to the VR community of museum apps too. I really hope they keep developing this, the potential is huge! Haven't had an update in awhile though it looks like which is unfortunate.. Best benchmark software on steam. Was expecting a game set in the adult film worlds version of a hard room where fluffers ply their trade keeping the male actors ready for their next scene. Another major disappointment and my fault for buying from the games title only.. Tactical pause are unimplemented. One of the best AC games.. The biggest problem I have with this is the lack of an audio slider. However, I consider this a cross between the gameplay from Hacknet, the ideas of Her Story, with the tone similar to that of Portal and some ARG stuffed in there too. About a 3-4 hour experience, depending on how well you can solve the problems. Not the best game I've played from the genre, but really enjoyable!

fnx = feels. I actually forgot all about this and that I even purchased this DLC when I got the game, I bought the game and some DLC a couple of months before I got around to playing it. Anyway, So I'm playing now for a while and just thought that was a part of the game, I haven't played without it so I would not know how different it would be.

But overall I think it's cool. I've spent a lot of time playing with that alone, so it sure does add quite a bit of play time.. You can't make virtual bowling fun. Even with zombies. It's 4:3 and you also can't switch resolution to a decent one.. For best results:

- 1) Listen to slayer while playing, make sure it's loud, ignore complaints from roommate and/or neighbors.
- 2) One hand should be raised up, making metal horns at all times.
- 3) Headbang, consider growing hair out to maximize effect.. another game i bought to fap uuuh i mean for the plot Excellent game, great graphics. great buy
